Technical Skills and Interest

Programming Languages
- C, C++ and Python

Web Development Technologies
- HTML, CSS, JavaScript, Bootstrap, PHP, Google Firebase, API and MySQL

Low-Code Web Design
- WiX, Canva and Figma

Electronics and Embedded Automation
- Arduino IDE, Arduino, EasyEDA, TinkerCAD, Multism and Logism

Area of Interest
- Internet of Things (IoT)
- Computer Networking
- Artificial Intelligence (AI)
- Machine Learning (ML)

Other Skills
- Time Management
- Innovative Skills
- Effective Communication
- Team Collaboration
- Adaptability
- Project Management Skills

About

I am a recent graduate with a Bachelor of Science in Computer Engineering, eager to apply my knowledge and skills in both hardware and software aspects of the field. I am passionate about technology and continuously seeking opportunities to expand my expertise and gain hands-on experience. Driven by a strong work ethic and a desire to contribute to innovative projects, I am excited to start my career and make a meaningful impact in the world of computer engineering.

Education

Bulacan State University - Meneses Campus
Bachelor of Science in Computer Engineering
TJS, Brgy. Matungao, Bulakan, Bulacan, Philippines
October 2020 - July 2024

General Weighted Average: 1.35 GWA
Gold Gear Awards: Dean's List [A.Y 2021-2022 & A.Y 2023-2024]
Organization: Institute of Computer Engineers of the Philippines Student Edition - Region 3 - Student Member [A.Y 2022-2024]
Competition: DICT - 8th Philippines StartUp Challenge 2023 [Bataan]

Work Experience

Information Technology Intern
Philippine Health Insurance Corporation - Region 3B
June 2023 - July 2023

- Utilized various PHIC Web Systems to efficiently process eClaims data entries and audit reports ensuring accuracy and compliance with regulatory standards.
- Mail transmission of PHIC sensitive information throughout the Region 3.
- Mandatory maintenance, cleaning and troubleshooting of computers systems, components, printers, and stable LAN connections of computers to their servers.

Quality Assurance Intern
Provincial Engineers Office - Bulacan
November 2019 - December 2019

- Mandatory site visits around Bulacan province to monitor project progress and assist Quality Assurance Engineers in testing construction materials to ensure compliance with industry standards.
- Project documentation by logging and organizing blueprints, project plans, and reports. Supporting the sorting and prioritization of construction projects, ensuring efficient workflow and adherence to project timelines.

Seminars and Training Courses

- **DICT-ILCDB |** Digital Mindset: Guide to Startup
- **DICT-ILCDB |** Blockchain 101: Blockchain for Beginners
- **Cisco Networking Academy** - Introduction to Data Science
- **Cisco Networking Academy and Python Institute** - Python Essentials 1
